

creative education for gifted and inquisitive children

November 08, 2021

Dear Satori Students and Families,

This weekend I was told of another student that tested positive for COVID. If you have not been contacted by me, then your child was not in close contact with the student. Even though we have been in regular contact with PCHD regarding our mitigation plan and our health practices, I have decided to increase our precautions and requirements until more students get vaccinated. So, until further notice, masks will be required inside and outside, and lunches and snacks will be on the playground (weather permitting).

Please remember, if your child has a cough, fever, seems overly sluggish, or a sore throat, they need to stay home. If you are not sure if you should keep them home, please call me and I can help you with your decision.

Once again, our goal is to keep our students safe and at school. I am looking forward to not having to write these emails, but until that time, thank you for all your support!

Jo
